## > Look and Find® Elmo

Look and Find® Elmo on Sesame Street is an educational app from the creators of Potty Time with Elmo. In this app, everyone's favorite furry red monster needs help finding things that go HONK! and BOING! and CLANK! With Elmo as their guide, preschoolers can develop hand-eye coordination while looking for 90 hidden objects in six colorful Sesame Street scenes. When you find an object, tap it to hear a fun sound! Work your way through all six scenes, or play one scene again and again. Elmo pops on screen throughout game play to provide encouraging words and keep kids focused. Also included in this app is the Look-Look Memory Game, a fun matching activity: tap on picture cards to flip them over briefly, and then try to find all the matching pairs. Plus, collect 15 animated stickers for your Super Duper Sticker Book!

Available for download on:
